INFO SEC PEER MENTORING

Student Testimonials:

"I think this program is great as the mentee is able to talk to someone with similar ideals/goals and ask how the classes are and what to expect working in this field. I wish it was around when I first started so I had more of an idea what to expect." W.T. Peer Mentor, NCC '22.

"I found this experience very helpful in studying and helping with info on Security+. My mentor helped me find better study sources than I was using and helped me actually commit to learning from these sources. This program really helped me a lot." Z.O. Peer Mentee, NCC '23.
